

Event Report – Dr Priyanka Bhosale

The ACTREC Alumni Association hosted its ##th event on 20th December 2023 at the KS Auditorium. The session featured Dr. Priyanka Bhosale, an alumnus and Research Associate at Kings College, London, US, who delivered a talk on " Cancer associated mutations lead to altered differentiation and mitochondrial dynamics in oral SCC". The event saw an attendance of about 50 participants, including several Ph.D. scholars, post doc fellows, project staff and PIs.

Dr. Jyoti Kode and Dr Ojaswini Upasini of AAA welcomed the audience and emphasized the importance of staying connected with one's alma mater. The talk began at 04:00 PM and included a lively Q&A session, with active participation from the principal investigators present. Dr. Bhosale was presented with a certificate of appreciation for his contribution to the event.
